Examination	University	Institute	Year	CGPA/%
Graduation	JSS University	JSS University, Noida	2024-2028	9.5
Intermediate/+2	CBSE	DAV Pratap Vihar	2021-2023	91.6
Matriculation	CBSE	DAV Pratap Vihar	2018-2021	93

OBJECTIVE

- Third-year B.Tech Computer Science student with project-based knowledge of programming and software development through academic and personal projects. Exploring Data Science alongside broader software development opportunities. Seeking an internship to apply technical skills, contribute to real-world projects, and grow in a collaborative professional environment.

COURSE PROJECTS

- **Titanic Survival Prediction using Machine Learning** *(Jul 2026)*
  - Developed a supervised machine learning model to predict passenger survival using Logistic Regression, Decision Tree, and Random Forest algorithms with data preprocessing and feature engineering.
  - **Tech Stack :** Python • Pandas • NumPy • Scikit-learn • Matplotlib • Seaborn • Power BI
  - Evaluated model performance using Accuracy, Confusion Matrix, Classification Report, ROC Curve, and Feature Importance, achieving **82.68% accuracy** with the Random Forest model and presenting insights through an interactive Power BI dashboard.

- **Flappy Bird & Zuzu's Adventure** *(Jun 2026 - Present)*
  - Built a 2D Flappy Bird clone in C# featuring physics-based movement, obstacle spawning, collision detection, score tracking, and restart functionality.
  - Currently developing a 2D Unity game focusing on gameplay mechanics, animations, and interactive environments.

- **SmartFlow - Smart Traffic Management System** *(Feb 2026 - Apr 2026)*
  - Designed and implemented a real-time AI-based traffic management system using YOLOv8 and OpenCV for vehicle detection and density analysis, dynamically optimizing signal timings based on real-time congestion levels.
  - **Tech Stack :** Python •Flask • TypeScript • Scikit-learn • MongoDB • PostgreSQL • FastAPI
  - Built a real-time traffic management dashboard integrating vehicle detection, congestion forecasting, emergency vehicle prioritization, and predictive analytics.

- **CoastWatch/OceanWatch** *(Oct 2025 - Dec 2025 | | Aug 2026 - Sep 2026)*
  - Developed a platform for real-time warnings and analysis of floods and ocean-related hazards.
  - Tech Stack : Python • OpenCV • HTML • CSS/Tailwind • Gemini API • Javascript(React.js,Node.js)
  - Integrated color-coded hazard mapping, emergency sound alerts, and on-screen helpline information to enhance emergency response and user awareness.

- **Expense Tracker(Backend)** *(Mar 2025 - May 2025)*
  - Built a Python-based backend to manage user expenses and transaction records.
  - Tech Stack : • Python(Numpy and Pandas) • HTML • CSS/Tailwind • Flask API • Javascript(React.js,Node.js)
  - Implemented budget tracking with category-wise expense analysis and color-coded overspending alerts and used CSV files for persistent storage and retrieval.

TECHNICAL SKILLS

- **Languages :** C, C++, Python, SQL
- **Core Concepts :** Data Structures & Algorithms, Object-Oriented Design, DBMS, Complexity Analysis
- **Frontend :** React.js, TypeScript, HTML, CSS

- **Backend :** Node.js, REST APIs
- **Database :** MySQL
- **Tools :** Git, GitHub, MATLAB, LaTeX, PowerBI, Tableau

WORK EXPERIENCE

- **GauravGo Games Technologies** *(July 2026 - Aug 2026)*
  - Intern at GauravGo Games Technologies.

    Developed a 2D Flappy Bird game using Unity and C# by implementing gameplay mechanics, collision detection, obstacle spawning, and score management.

    Currently developing a 3D Unity game focusing on gameplay mechanics, animations, and interactive environments.
- **Thiranex** *(June 2026)*
  - Data Analyst Intern at Thiranex.

    Built interactive Power BI dashboards and applied data visualization, modeling, and reporting techniques. Developed a Titanic Survival Prediction dashboard using Python, Pandas, Scikit-learn, and Power BI to visualize ML insights.

EXTRA-CURRICULARS & ACHIEVEMENTS

- Hosted school and college events, strengthening public speaking and communication skills. *(Present)*
- Top 15 teams in SIH from the college *(Oct 2025 - Dec 2025)*
- IEEE Paper Presentation Conclave,**Prize- 1st Prize** *(Oct 2024)*
- Secured School Rank 1 in SOF International English Olympiad (IEO) & Zonal Rank-95, **Prize- 1st Prize**
- Secured School Rank 2 in the International Mathematical Olympiad (IMO) & Zonal Rank-110, **Prize- 2nd Prize**
- Project ideas and implementation organized by Rancho Labs, **Prize- 3rd Prize** *(Jun 2019)*
